EXPERIENCE

[Web Development Intern](#) | YHills

- Developed a dynamic personal portfolio using HTML, CSS, JavaScript, and React.js, demonstrating projects, skills, and experience with responsive design and seamless navigation.
- Created a full-stack e-commerce clone with React.js and Node.js, featuring user authentication, PayPal payment integration, and deployed on Vercel.

PROJECTS

[E-commerce](#)

- Created a robust and dynamic online shopping platform using the MERN stack (MongoDB, Express, React, Node.js).
- This application features a user-friendly interface built with React, a secure backend powered by Express and Node.js, and a scalable database managed with MongoDB.
- Key functionalities include user profiles for personalized management, order history for tracking past purchases, and a secure payment system for smooth transactions.

[Currency Converter](#)

- Developed a Currency Converter application that allows users to effortlessly convert between different currencies.
- It fetches real-time exchange rates from an external API to ensure accuracy and provides instant conversion results.

[Weather Application](#)

- Developed a Weather Application using HTML, CSS, and JavaScript that provides real-time weather updates for any location.
- It fetches and displays current weather conditions, including temperature, humidity, and weather descriptions, using a reliable weather API.

SKILLS

- **Programming Languages:** [Java](#), Python
- **Core Strength:** Data Structures, Algorithms
- **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Course Work:** DBMS, Operating Systems, Computer Networking, OOPs

EDUCATION

National Institute of Technology, Nagaland

Bachelor of Technology (Computer Science and Engineering)

2021-2025 | CGPA: 7.79
